

June 2019

To Whom It May Concern:

I would like to take the opportunity to write this referral on behalf of Christopher Cadoret. I have been with *Verizon Wireless* since 2005 and have had the opportunity to work with many great leaders in the company over the years.

When Christopher Cadoret was relocated to our store in Brooksville, he brought a new management style with him! As time went on and I felt more and more comfortable with Christopher's management style, we were able to cultivate a most rewarding respect for one other - both professionally and personally. Christopher was the only manager I worked with at *Verizon* which so effectively knew how to push his team to reach unimaginable goals (the Brooksville Store had some impressive records to show under his leadership). His work ethic, his concern for his team and the overall success of his team was very humbling. The results confirm his passion! He has the ability to bring out the best in each and every individual.

And more importantly, Christopher never mistreated or disrespected any of his team members. He always had an "open door" policy.

Unfortunately I only had the opportunity to work with Christopher for a limited time. He moved on to different departments and appears to be excelling in each new endeavor. I would join his team if asked and I am grateful to call Christopher not only my previous GM, but also my friend.

Sincerely,

Christian Thurek
