To whom it may concern,

I first would like to thank you for taking time to read this letter and also taking into consideration the best candidate for this position.

It was not too long ago when I started my journey as a solution specialist not knowing the importance of small business at our location **Christopher** instructed and coached me on the necessity of connecting and discovering business opportunities at every door swing always asking the magic question **do you or anyone you know own or operate a business?** Within days of using the new verbiage I saw **tremendous growth** and **consistency** in business ads and repeat business customers This was a spin on the regular question **are you in for business or personal today?** I was dumbfounded by the knowledge that Christopher had bestowed upon me by just rephrasing that simple question..

Within months of hard work and consistent coaching from **Christopher** I became one of the top representatives due to his teachings and his methodology within the business channel to this day I consider **Christopher** not only a valuable resource in my tool belt but also one of the chief cornerstones in the small business markets and would highly recommend him .I will always ask for his opinion on any business matter and personal matter regarding the proper ways to generate business for my store as a maverick and ways to keep my eye open for any opportunities to increase the growth of Verizon Verizon wireless.

Christopher is not only talented but he is able and willing to go the extra mile to give the most of himself for the betterment of any location that he is at into grow each individual that he encounters in whatever he does. I highly recommend **Christopher**, and hope to see him always at the top not only as a mentor but as a leader of the company.

Sincerely,

Lorenzo De Jesus
